

Step-by-step guide for getting your immunization records on your smart phone on Docket.

What is Docket? Docket connects you directly with immunization registries (including the New Jersey Immunization Information System) to deliver up-to-date COVID-19 immunization records for individuals and their families. You can use the Docket app to provide proof of COVID-19 immunizations.

I need proof of mine or my family members' COVID-19 vaccinations. Where can I find this information? You can access your official COVID-19 immunization reports directly from Docket. You can export PDFs of your records by clicking the share button and clicking "Download PDF".

Is this a vaccine passport? No, this is not a vaccine passport. The intent of Docket is to allow you to digitally access your COVID-19 immunization records, to use at your discretion.

Step 1: Download the Docket app via the Apple App store or on Google Play Store on your smartphone. Open up the app. At the bottom of the screen, click "Don't have an account? Sign up."

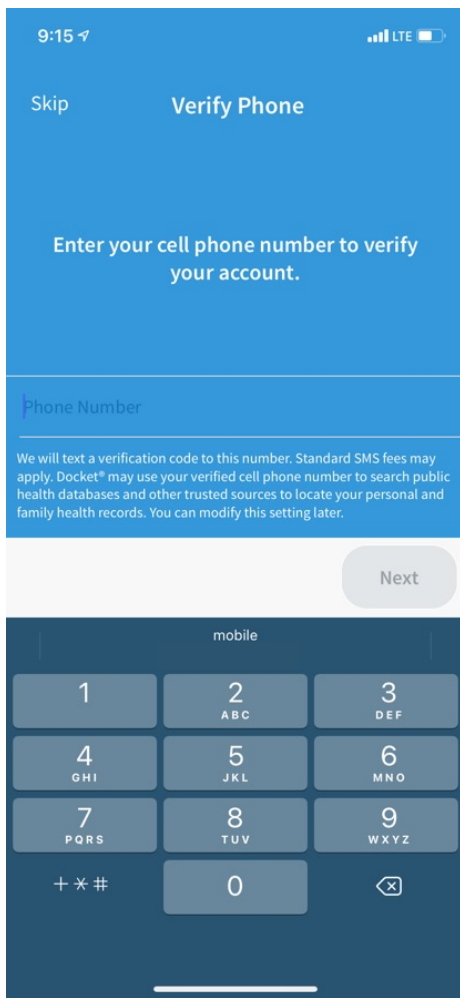

Step 2: Enter the email of your choice, first and last name, and create a password. Click create account.

Step 3: Enter your birthday date and gender. Click continue.

Step 4: Enter your cell phone number for verification followed by the SMS text code you are sent after entering your number.

Step 5: Read through the consent page and click on consent and then click "Get Started."

Step 6: Now that you are fully registered. Enter your name, date of birth and gender again. Scroll down, click on the consent box, select NJ Department of Health and click search records.

Why use an app like Docket for my personal health records? Docket is a CDC-approved application used in multiple states (Utah and Minnesota, for example) that adheres to federal standards for data security and offers a simple way for New Jerseyans to access their COVID-19 immunization records.

Why is Docket is not displaying my records? There are a few scenarios that may prevent Docket from displaying your records:

- Multiple possible matches in NJIIS, misspelled names, etc.
- To access your records, please visit NJIIS and submit a Ticket to the team who will respond to your query within 1 to 3 business days. Submit a ticket to the NJIIS support team at the following link (bit.ly/NJ-COVID).

Please also ensure your healthcare provider has the correct information in their records.
